

## Exhibitors at CHEST 2009

### **ACCP Career Connection 1829**

*Northbrook, IL*

The ACCP Career Connection, powered by the HealthCareers, is an online service that the ACCP offers their members and affiliates to search and post available pulmonary and critical care medicine positions. Career Connection staff will be at CHEST 2009 to give on-site demos and assist attendees with their job search or staffing needs.

### **ACCP/HIMSS Health IT Showcase 1519**

*Chicago, IL*

The HIMSS Health IT Showcase will allow attendees to talk with exhibitors and learn more about the technology solutions to manage the practice's patient flow, provide immediate access to patient records in-house or remotely, electronically communicate with referring physicians, and securely send consult notes and clinical data in an effort to improve patient safety and outcomes and how to effectively optimize reimbursements available for their organization through the economic incentives in the American Recovery and Reinvestment Act.

### **Accredo Health Group, Inc. 1612**

*Nashville, TN*

Accredo is a national network of pharmacies dedicated to the treatment of rare, complex conditions, such as pulmonary arterial hypertension, hemophilia, and autoimmune disorders treated with immunoglobulin therapy. Our comprehensive therapy management programs engage specialty-trained pharmacists, registered nurses, reimbursement specialists, and patient care representatives who provide enhanced support services to patients, their families, health-care professionals, and payers.

### **Actelion Pharmaceuticals, US, Inc. 1607**

*South San Francisco, CA*

Actelion Pharmaceuticals is committed to the pulmonary arterial hypertension (PAH) community. Tracleer® (bosentan) is the first oral endothelin receptor antagonist (WHO Class III or IV), Ventavis® (iloprost) is the only inhaled prostacyclin for the treatment of PAH (NYHA Class III or IV), and introducing an innovative formulation of epoprostenol for injection (NYHA Class III or IV).

### **Actelion Pharmaceuticals, US, Inc. 1701**

*South San Francisco, CA*

Actelion Pharmaceuticals is a biopharmaceutical company focusing on the discovery, development, and commercialization of innovative treatments to serve unmet medical needs. Actelion is committed to research in cardiopulmonary disease, sleep disorders, and immunology.

### **ADVANCE Newsmagazines 1340**

*King of Prussia, PA*

Merion Publications, Inc. is the company behind ADVANCE Newsmagazines, the ADVANCE for Healthcare Careers Web site, the ADVANCE Healthcare Shop, ADVANCE job fairs, ADVANCE custom promotions, and more. We serve 1.8 million health-care professionals across the nation with news, career guidance, product information, job listings, professional products, and much more.

### **Allegro Diagnostics 1522**

*Boston, MA*

Allegro Diagnostics is a pulmonary genomics company pioneering molecular diagnostics for lung cancer. Allegro's first product, BronchoGen™, is a test designed for current or former smokers who present with suspect lung cancer and are undergoing bronchoscopy. It is expected that BronchoGen™ will improve diagnostic accuracy at the point of bronchoscopy.

### **Alpha-1 Foundation 1005**

*Miami, FL*

The Alpha-1 Foundation is dedicated to providing the leadership and resources that will result in increased research, improved health worldwide detection, and a cure for alpha-1 antitrypsin deficiency.

### **Ambry Genetics 1424**

*Aliso Viejo, CA*

Ambry Genetics, a worldwide leader in genetic testing with a pulmonary disease focus, provides highly sensitive molecular testing services, enabling precise diagnoses and revealing etiologies of adult and pediatric pulmonary diseases. Our test menu includes: cystic fibrosis, central hypoventilation syndrome, surfactant dysfunction, pulmonary arterial hypertension, PCD, IPF/telomerase, and more. Research collaborations are welcome.

### **American Academy of Nurse Practitioners 1931**

*Austin, TX*

AANP is the oldest, largest, and only full-service professional membership organization for NPs of all specialties. AANP provides national representation for over 125,000 NPs through its various

membership categories. Stop by our booth and learn about NPs and the wide array of membership benefits that AANP offers.

**American Association for Bronchology and Interventional Pulmonology** 2031  
*Cleveland, OH*

The American Association for Bronchology and Interventional Pulmonology (AABIP), founded in 1993, is an interdisciplinary society dedicated to bronchoscopy and interventional pulmonology. The cornerstone of our mission is to enhance multidisciplinary and international collaboration to develop, evaluate, and disseminate techniques, procedures, and cases that benefit patients with lung cancer, tracheobronchial diseases, and other thoracic disorders.

**American Association of Critical-Care Nurses** 2029  
*Aliso Viejo, CA*

The American Association of Critical-Care Nurses (AACN) represents the interests of more than 500,000 acute and critical care nurses working toward a health-care system driven by the needs of patients and families where nurses make their optimal contribution. AACN membership includes the benefits of award-winning journals, educational programs, products, and services.

**American Board of Internal Medicine** 1929  
*Philadelphia, PA*

Staff from the American Board of Internal Medicine will be on-hand to answer your Maintenance of Certification (MOC) questions.

**American Thoracic Society** 905  
*New York, NY*

Founded in 1905, the American Thoracic Society (ATS) is dedicated to advancing pulmonary, critical care, and sleep medicine. The Society's 15,000 members prevent and fight respiratory disease around the globe through research, patient care, and advocacy. Through its journals and international conference, ATS disseminates groundbreaking research to the health-care community.

**Apieron Inc.** 1219  
*Menlo Park, CA*

Visit Apieron to learn about the latest innovation in asthma management—the Insight™ eNO System. If you treat or see asthma patients, you need exhaled nitric oxide (eNO) to understand the underlying inflammation. Spirometry gives you an important but incomplete picture of your patients' health. Get the complete picture now with a simple 11-second breath test.

**Aspect Medical Systems** 1120  
*Norwood, MA*

Aspect Medical Systems, Inc. manufactures and markets patient monitoring technology that directly measures the effects of anesthetics and sedatives on the brain. By using Aspect's BIS® technology, clinicians are able to optimize administration of anesthetics and sedatives and improve the cost effectiveness, quality, and safety of patient care.

**Association of Asthma Educators** 1202  
*Columbia, SC*

The primary purpose of the Association of Asthma Educators (AAE) is to promote asthma education as an integral comprehensive asthma program, to raise the competence of health-care professionals who educate individuals and families affected by asthma, and to raise the standard of care and quality of asthma education delivered to those with asthma. To that end, the AAE recognizes that asthma education should reflect the recommendations of the national guidelines and serve to meet the needs of the target population.

**Asthmatx, Inc.** 1531  
*Sunnyvale, CA*

Asthmatx is conducting clinical investigations of a catheter-based device for treating severe asthma. The Alair® bronchial thermoplasty system is a therapeutic bronchoscopic procedure that reduces the amount of airway smooth muscle, with the potential to decrease asthma symptoms due to bronchoconstriction.

**AstraZeneca LP** 1637  
*Wilmington, DE*

AstraZeneca is a major international health-care business engaged in the research development, manufacture, and marketing of prescription pharmaceuticals and the supply of health-care services. It is one of the world's leading pharmaceutical companies, with leading positions in sales of gastrointestinal, cardiovascular, respiratory, oncology, and neuroscience products.

## Exhibitors at CHEST 2009

**Axcan Pharma** **824**  
*Bridgewater, NJ*

Axcan is a leading multinational specialty pharmaceutical company focused on gastroenterology. The company develops and markets a broad line of prescription products to treat a range of GI diseases and disorders, such as inflammatory bowel disease, irritable bowel syndrome, cholestatic liver diseases, and complications related to pancreatic insufficiency.

**Baxter** **711**  
*Deerfield, IL*

Baxter provides a comprehensive range of therapeutic proteins derived from plasma through innovative recombinant technology. These high-quality, leading therapies are used to enhance the lives of patients requiring support for hemostasis, immune deficiencies, alpha-P1 deficiency, hemophilia, and other blood-related disorders.

**bioMerieux** **1220**  
*Durham, NC*

bioMerieux is a world leader for in vitro diagnostic solutions (instruments, reagents, software) that determine the source of disease and contamination to improve patient health and ensure consumer safety. Our award-winning diagnostic solutions identify infectious diseases and provide high medical value results for cardiovascular emergencies and early indications of sepsis, and they guide patient therapy management.

**Boehringer Ingelheim Pharmaceuticals, Inc.** **1835**  
*Ridgefield, CT*

Boehringer Ingelheim Pharmaceuticals, Inc., the US subsidiary of Boehringer

Ingelheim, headquartered in Germany, operates globally in 47 countries with approximately 39,800 employees. The company is committed to researching, developing, manufacturing and marketing novel products of high therapeutic value for human and veterinary medicine.

**Boehringer Ingelheim Pharmaceuticals, Inc. and Pfizer** **1935**  
*Ridgefield, CT and New York, NY*

Boehringer Ingelheim Pharmaceuticals, Inc. and Pfizer Inc. welcome you to CHEST 2009 and look forward to the opportunity to share the latest clinical information on our products.

**Boston Medical Products/NOVATECH** **1239**  
*Westborough, MA*

Boston Medical Products and NOVATECH are manufacturers of high-quality tracheostomy, tracheal, and bronchial stent products. NOVATECH-Dumon® silicone tracheal and bronchial stents are the original gold standard. We also offer the TONN™ delivery system for silicone stents and a full range of forceps for rigid bronchoscopy. Montgomery® Safe-T-Tube™ is the original gold standard tracheal stent that provides tracheal support and a secondary airway.

**Boston Scientific** **1123**  
*Marlborough, MA*

Boston Scientific Endoscopy develops innovative technology that supports less invasive, more efficient pulmonary and GI procedures. Our ongoing contributions are made in collaboration with physicians around the world. We stand beside physicians, providing comprehensive

support locally, and through hands-on education and industry sponsorships, to help improve patient outcomes.

**BRAHMS USA, Inc** **1319**  
*Annapolis, MD*

BRAHMS develops biochemical tests used worldwide to assist doctors with the diagnosis and management of life-threatening diseases. BRAHMS USA's procalcitonin is an assay cleared by the US Food and Drug Administration for the diagnosis of severe bacterial infection. Research on new biomarkers in cardiovascular disease indicates great potential for the markers MR-pro ANP, MR-proADM, CT-pro AVP, and CT-pro ET1.

**Broncus Technologies, Inc.** **1240**  
*Mountain View, CA*

Broncus Technologies is focused on bronchoscopic interventions and devices for emphysema and lung cancer. Our innovations include catheters to detect blood vessels and obtain core tissue samples and software to plan treatments and navigate to locations in the lungs. Broncus Technologies is also investigating the minimally-invasive airway bypass procedure for homogeneous emphysema.

**Bryan Corporation** **1336**  
*Woburn, MA*

Among the items in Bryan Corporation's product line are the US Food and Drug Administration-approved sterile talc products: Sclerosol Intrapleural Aerosol® and Sterile Talc Powder™, both indicated for the prevention of recurrent malignant pleural effusion. Bryan Corporation also features the Bryan-Dumon Series II Rigid Bronchoscope, Dumon-style silicone

tracheobronchial and Y-stents, and instrumentation for rigid bronchoscopy. For more information, please visit our Web site at [www.bryancorp.com](http://www.bryancorp.com).

**Canadian Thoracic Society** 2028  
*Ottawa, ON, Canada*

The Canadian Thoracic Society (CTS), founded in 1958, is the medical section of The Canadian Lung Association. The CTS promotes lung health by supporting the respiratory community through leadership, collaboration, research, learning, and advocacy and by promoting the best respiratory practices in Canada. The CTS also advises the Canadian Lung Association on scientific matters.

**Cardinal Health** 1031  
*Yorba Linda, CA*

Cardinal Health Respiratory Technologies and Critical Care (formerly VIASYS Healthcare) offers an extensive portfolio of market-leading capital and disposable respiratory products. Cardinal Health specializes in innovative solutions for invasive and noninvasive ventilation, pulmonary diagnostics, exercise testing, sleep diagnostics and therapy, interventional specialties, oxygen therapy, and medication delivery.

**Cardiotronic, Inc.** 1119  
*La Jolla, CA*

The Electrical Cardiometry™ monitors and the AESCULON® and the ICON® noninvasively measure continuous stroke volume, cardiac output, and other hemodynamic parameters to aid clinical assessment diagnosis and therapy. Electrical Velocimetry™ is a new, patented technology that measures the change of blood resistivity due to the alignment of RBCs in

the aorta upon pulsatile flow. With only four standard ECG electrodes as disposables, its ease of use, and clinically proven accuracy, these monitors will become the standard in clinical and outpatient monitoring.

**Caring Voice Coalition** 1007  
*Mechanicsville, VA*

Caring Voice Coalition is a nonprofit organization established in 2003. Our primary goal is to help patients with specific illnesses access life-saving therapies. Our specialists work with patients to help maximize insurance coverage, help pay certain residual costs associated with therapy, and connect patients to essential support resources.

**Cephalon, Inc.** 1011  
*Frazer, PA*

Founded in 1987, Cephalon, Inc. is an international biopharmaceutical company dedicated to the discovery, development and marketing of innovative products in three core therapeutic areas: central nervous system, pain, and oncology. The company currently employs approximately 3,000 people in the United States and Europe.

**CleveMed** 1224  
*Cleveland, OH*

With more than 15 years of experience in wireless medical technology, CleveMed has ideal solutions for polysomnography (Sappire PSG™, 22-channel and Crystal Monitor®, 14-channel), and type III portable sleep monitoring (SleepScout™, 9-channel). DreamPort™ allows remotely attended sleep studies to be done from anywhere, using a bedside system controlled over the Internet.

**CME Corner** 1100  
*Newtown, PA*

The CME Corner® education center provides ACCP members with three free CME activities: a 1.0-hour respiratory disease topic overview, a 0.5-hour clinical case on COPD, and a 0.5-hour clinical case on asthma. These Windows-compatible activities are contained on a free USB flash drive available to attendees at the CME Corner® exhibit.

**Cogent Healthcare** 1303  
*Brentwood, TN*

For more than a decade, Cogent Healthcare has been the leader in developing and managing hospital medicine programs nationwide. Our System of Care delivers the resources, leadership and structure that supports hospitalists in providing exceptional patient care while aligning with our hospital partners to achieve goals of quality, safety, efficiency and service.

**Cook Medical** 1020  
*Bloomington, IN*

Cook® Medical provides safer, less traumatic medical devices that can be utilized at the patient's bedside. Cook manufactures the Ciaglia Blue Rhino® and Blue Dolphin for percutaneous tracheostomy, and the minocycline/rifampin CVCs with proven lowest catheter-related bloodstream infection rates. Cook also provides a variety of percutaneous centesis and drainage solutions.

## Exhibitors at CHEST 2009

### **COPD Foundation** 1401 *Washington, DC*

The mission of the COPD Foundation is to develop and support programs that improve the quality of life through research education, early diagnosis and enhanced therapy for persons whose lives are impacted by COPD. Request information about the *COPD Digest*, COPD information line and The COPD Foundation's mobile spirometry unit by calling (866) 316-COPD(2673).

### **Coram, Inc.** 1320 *Denver, CO*

Coram is a national provider of specialty home infusion and pharmacy services and specializes in alpha-1 augmentation, immunoglobulin, pre- and posttransplant therapies, parenteral nutrition, and pain and palliative care. An Apria Health-care Company, Coram also coordinates respiratory care for patients receiving oxygen, inhaled medications, and related therapies at home.

### **Cornerstone Therapeutics, Inc.** 1342 *Cary, NC*

Cornerstone Therapeutics Inc. is a specialty pharmaceutical company focused on acquiring, developing, and commercializing products primarily for the respiratory market. Our products include Zylflo CR<sup>®</sup>, Spectracef<sup>®</sup>, and the AlleRx<sup>®</sup> dose pack family.

### **Covidien** 737 *Boulder, CO*

### **CSL Behring** 1122 *King of Prussia, PA*

CSL Behring is a global leader in the plasma protein biotherapeutics industry.

166 CSL Behring manufactures and markets

a range of safe and effective plasma-derived and recombinant products and related services. The company's therapies are used in the treatment of inherited emphysema, hemophilia, von Willebrand disease, immune deficiency disorders, the prevention of hemolytic diseases in the newborn, cardiac surgery, organ transplantation, and the treatment of burns and shock. Visit our Web site at [www.cslbehring-us.com](http://www.cslbehring-us.com).

### **Department of Veterans Affairs (HRRO)** 1200 *New Orleans, LA*

The Department of Veterans Affairs focuses on recruiting health-care professionals and students throughout the United States to provide the best care for our veterans. Promoting a diverse workforce and offering a wide array of employment benefits, scholarships, and retention initiatives, the VA is a leader in our nation's health-care industry.

### **Dey, LP** 1339 *Napa, CA*

Dey, LP, a subsidiary of Mylan Inc. and the US leader in sales of nebulized respiratory medication, focuses on respiratory diseases, respiratory-related allergies, asthma, and emergency care medicine. Products include the EpiPen<sup>®</sup> Auto-Injector; Perforomist<sup>™</sup> Inhalation Solution (please see full prescribing information, including boxed warning at [www.perforomist.com](http://www.perforomist.com)); Curosurf<sup>®</sup> Intratracheal Suspension; Cyanokit<sup>®</sup> Antidote; and ZYFLO CR<sup>™</sup> (Zileuton) Extended-Release Tablets.

### **Dispensary of Hope** 1302 *Nashville, TN*

The Dispensary of Hope is a not-for-profit network of dispensing sites that provides short-term and long-term pharmaceutical assistance to low income and uninsured patients.

### **Eagle Hospital Physicians** 1323 *Atlanta, GA*

Eagle Hospital Physicians is a physician-led organization providing innovative solutions to inpatient care management. Through remote presence technology, Eagle supports a network of physicians with the ability to "be in two places at once." Critical care specialists can conduct interdisciplinary rounds in the ICU and consults interacting with patients from anywhere, anytime.

### **EBSCO Publishing** 913 *Ipswich, MA*

EBSCO Publishing is the leading provider of evidence-based clinical point-of-care resources for doctors, nurses, patients, and rehabilitation specialists with DynaMed<sup>™</sup>, Nursing Reference Center<sup>™</sup>, Patient Education Reference Center<sup>™</sup>, and Rehabilitation Reference Center<sup>™</sup>.

### **Edwards Lifesciences** 1019 *Irvine, CA*

Edwards Lifesciences offers an extensive line of hemodynamic monitoring solutions, educational tools, and support, including the FloTrac sensor and Vigileo monitor, the PreSep and PediaSat oximetry catheters, the Swan-Ganz PAC, TruWave pressure transducer, and VAMP system. Since the introduction of the Swan-Ganz catheter in 1973, Edwards has partnered with clinicians to develop

solutions that help advance patient care. Please visit our Web site at [www.Edwards.com/CriticalCare](http://www.Edwards.com/CriticalCare).

**Eisai Inc.** 1209  
*Woodcliff Lake, NJ*

Eisai Inc. is a US pharmaceutical subsidiary of Eisai Co., Ltd., a research-based human health-care company that discovers, develops, and markets products throughout the world. Eisai focuses its efforts in three therapeutic areas; neurology, GI disorders, and oncology/critical care.

**Electromed, Inc.** 1236  
*New Prague, MN*

Electromed, Inc. presents the SMART-VEST® Airway Clearance System®, a patented medical device that uses high frequency chest wall oscillation therapy to clear the lungs of excess mucus and provide improved lung drainage. The SMARTVEST® is a portable, programmable, and multipositional airway clearance device that ensures patient ease and convenience.

**ERBE USA** 818  
*Marietta, GA*

ERBE USA introduces to its line of electro-surgical units the next generation argon plasma coagulation workstation, CIO and CIO/APC 2, multiple possibilities for endocoagulation; endocut; and proprietary pulsed, precise, and forces argon-enhanced tissue effects. The Erbokryo™ treats a wide variety of medical conditions that benefit from cryosurgery.

**European Respiratory Society** 903  
*Lausanne, Switzerland*

With more than 9,000 members from more than 110 countries, the European Respiratory Society is the largest respira-

tory society in Europe. A not-for-profit, international medical organization, it aims to alleviate suffering from respiratory disease and promote lung health through research, knowledge sharing, and education.

**Fisher & Paykel Healthcare** 1118  
*Irvine, CA*

Fisher & Paykel Healthcare, Inc., a world leader in the innovative design and manufacture of reliable, cost-effective humidification systems for ventilator, OptiFlow™ MFT™ high flow therapy, and obstructive sleep apnea. Products include the MR850 Humidification System, OptiFlow Interface, Sleep Style 200 series humidified CPAP system, Thermo-smart technology and Flexifit series masks.

**Forest Pharmaceuticals, Inc.** 1143  
*New York, NY*

Forest Pharmaceuticals welcomes you to San Diego. We invite you to visit our exhibit where our professional representatives will welcome the opportunity to discuss and answer any questions regarding our product AeroChamber Plus®. Please visit our Web site at [www.forestpharm.com](http://www.forestpharm.com).

**GE Healthcare** 611  
*Wauwatosa, WI*

As a leader in health care, GE is committed to helping you provide the best critical care possible. You are invited to stop by our exhibit this year to experience our ultrasound solutions. We'll feature Venue® 40, our new simple, sophisticated ultrasound that is specifically designed for point-of-care and bedside applications. In addition, we have multiple system and transducer options to meet your ICU needs. From general

imaging to advanced echocardiography (transthoracic and transesophageal), GE has your solution for critical care ultrasound.

**Genentech, Inc./Novartis Pharmaceuticals** 1731  
*South San Francisco, CA*

Genentech and Novartis Pharmaceuticals Corp. are copromoting Xolair, a recombinant humanized monoclonal antibody for the treatment of allergy-related moderate-to-severe asthma in adolescents (aged 12 and above) and adults.

**Gilead Sciences** 1501  
*Foster City, CA*

Gilead Sciences is a biopharmaceutical company that discovers, develops, and commercializes innovative therapeutics in areas of unmet medical need. The company's mission is to advance the care of patients suffering from life-threatening diseases worldwide. Gilead has operations in North America, Europe, and Australia.

**GlaxoSmithKline** 1800  
*Philadelphia, PA*

GlaxoSmithKline offers a number of programs to support effective health management strategies and improve patient care. Visit our exhibit for information about our products and programs.

## Exhibitors at CHEST 2009

- Glenwood Systems LLC** 1225  
*Waterbury, CT*  
Glenwood Systems spotlights your medical practice revenue drivers to bring more revenue to your bottom line using software, process, and service. Offering CCHIT-certified EMR, practice management software, assisted billing services, and full billing services, Glenwood has an affordable revenue solution for every practice.
- Harrison Medical Center** 1203  
*Bremerton, WA*  
Harrison is a premiere medical center of the northwest region, serving the Kitsap and Olympic peninsulas. Located in Kitsap County, we are just an hour's drive, or leisurely ferry ride, from Seattle. This 297-bed acute-care medical center, with more than 2,200 employees and 450 physicians, is currently recruiting hospital employees—full-time, critical care intensivists. New program, fantastic opportunity! E-mail [tracy.barton@harrisonmedical.org](mailto:tracy.barton@harrisonmedical.org) for more information.
- Hawaii Convention Center** 2130  
*Honolulu, HI*  
"Welcome to The Islands of Aloha"—the destination for CHEST 2011. Stop by and visit with your friends from Hawaii as you start planning for the 2011 meeting on O'ahu. Grab some information, watch a video of the islands, and don't forget your special Hawaiian treat. We look forward to seeing you in San Diego and then welcoming you to Hawaii in October 2011.
- Healthpac Computer Systems, Inc.** 1422  
*Savannah, GA*  
Healthpac Computer Systems offers HIPAA-compliant medical billing software, along with a Certification Commission for Healthcare Information Technology (CCHIT)-certified electronic medical record specifically for medical billing. Our solution features scanned document imaging and other capabilities that help dramatically reduce claim rejections. Please visit our Web site at [www.healthpac.net](http://www.healthpac.net), or call us at (800) 831-9419, x202.
- Hill-Rom** 811  
*Batesville, IN*  
Hill-Rom is a leading manufacturer and provider of medical technologies and services for the health-care industry, including patient support systems, noninvasive therapeutic products, medical equipment rentals, and information technology solutions.
- Holzer Clinic** 1305  
*Gallipolis, OH*  
Holzer Clinic is a physician-owned and operated multispecialty group. Our 140 physicians have provided unparalleled care to the residents of southern Ohio for more than 50 years. Our nine campuses, three surgery centers, cancer center, and cardiovascular institute ensure the next 50 years will be just as bright.
- Hospira** 831  
*Lake Forest, IL*  
Hospira is a global specialty pharmaceutical and medication delivery company dedicated to Advancing Wellness™. The company's products help improve the safety, cost, and productivity of patient care. Learn more at [www.hospira.com](http://www.hospira.com).
- ICCU Imaging** 942  
*Senneville, PQ, Canada*  
See our full-training curriculum on the use of bedside ultrasound to perform a focused cardiac ultrasound study (FOCUS). It is offered in a multimedia format (DVDs, pocket guides, seminars) with hundreds of stunning 3D animations, clips, graphics, clinical cases, and more.
- ImaCor LLC** 938  
*Uniondale, NY*  
ImaCor showcases the ClariTEE™ probe, a miniature transesophageal echocardiography monitoring system that allows direct visualization of cardiac size and function in the ICU up to 72 hours. The ClariTEE™ probe allows intensive care clinicians to easily assess cardiac preload, intravascular volume status, and left ventricular systolic function over time.
- Indian Chest Society** 901  
*Durgakund, Varanasi, India*  
The Indian Chest Society was established in 1980 with the following objectives: (a) promotion of research in the field of respiratory medicine; (b) periodic academic meetings and conferences; (c) patient education seminars and programs; and (d) training courses for physicians and paramedics.
- Intensivist Jobs/The Intensivist Company** 1304  
*Pittsburgh, PA*  
Physician Technologies ([phytech.net](http://phytech.net)) provides a comprehensive menu of management services to solve the ever-increasing clinical, financial information, and billing service needs of pulmonary and critical care physicians. Intensivist Jobs recruits pulmonary and critical care

physicians nationwide. Potential candidates can register with Intensivist Jobs online at [intensivistjobs.com](http://intensivistjobs.com).

**InTouch Health** **1324/1325**  
*Santa Barbara, CA*

InTouch Health's Remote Robotic System enables physicians to more easily and frequently consult and round on hospital-based patients, thereby improving the hospital throughout, physician efficiency, and quality of care. With RP-7™, the Remote Presence Robot, physicians are available on-demand across multiple areas of high acuity (ICU, ED, patient wards).

**Invacare Corporation** **1318**  
*Elyria, OH*

Invacare Corporation is the global leader in the manufacture and distribution of innovative home and long-term care medical products that promote recovery and active lifestyles. The company has 5,900 associates, and markets its products in 80 countries around the world. For more information, visit Invacare's Web site at [www.invacare.com](http://www.invacare.com).

**Kadlec Health System** **1404**  
*Richland, WA*

Kadlec Medical Center is offering an opportunity to practice critical care medicine in a state-of-the-art environment, within a growing hospital, with a supportive administration and medical staff, plus a place that fosters personal growth. Kadlec's intensivist program is built on a foundation of evidence-based medicine, compassionate care, and team empowerment.

**Kaiser Permanente** **1300**  
*Pasadena, CA*

Within the Southern California Permanente Medical Group, physicians find recognition, stability, opportunity, and independence. Driven by the needs of our members and built on a platform in which medical decisions are made by physicians, each of our locations is able to self-manage the resources necessary for the delivery of excellent patient care.

**KarmelSonix Ltd.** **1419**  
*Haifa, Israel*

KarmelSonix is the market leader for acoustic respiratory monitoring (ARM). ARM continuously records breath sounds and documents wheeze and cough for diagnosis and management of respiratory diseases and is objective, quantitative, portable, and scientifically proven. ARM requires no patient cooperation for bronchodilator evaluation, broncho-challenge testing, sleep testing for nocturnal asthma, ED and ICU monitoring of WheezeRATE™, or evaluation of cough.

**KCI** **631**  
*San Antonio, TX*

KCI offers more than 40 healing systems and therapy options that provide risk management and disease management solutions for wound, pulmonary, bariatric, vascular, and diabetic patients. Our commitment to improving patient outcomes remains paramount. KCI can effectively meet patient needs with the broadest, most economically proven product line in the industry.

**Kindred Healthcare, Inc.** **1206**  
*Louisville, KY*

Kindred's long-term acute care hospitals offer a full range of services for patients whose medically complex conditions require the specialized care and prolonged recovery time that conventional short-term acute care hospitals are not equipped to provide. Kindred also operates nursing centers and rehabilitation programs as part of the postacute continuum.

**Lippincott Williams & Wilkins** **1434**  
*La Mesa, CA*

Lippincott Williams & Wilkins publishes the latest medical information in books, journals, and DVDs, and on the Internet.

**Market Access Partners** **921**  
*Evergreen, CO*

Market Access Partners (MAP) is an independent market research company that specializes in research for the health-care industry, specifically for medical supply, surgical equipment, and pharmaceutical fields. At CHEST 2009, MAP is administering a questionnaire to help get the answers that our clients require. Questionnaires are blinded, and we are giving an appreciation gift in exchange for physician input.

**Mary Washington Hospital/ Medicorp** **1301**  
*Fredericksburg, VA*

We offer ICU/critical care opportunities to join a well-established private practice group that serves as intensivists at Mary Washington Hospital in Fredericksburg, VA, and includes a clinical office practice and sleep lab.

## Exhibitors at CHEST 2009

### **Masimo Corporation** 1023

*Irvine, CA*

Masimo is the inventor of motion and low-perfusion-tolerant pulse oximetry. More than 100 independent studies demonstrate the superior performance of Masimo SET™ pulse oximetry technology. Masimo Rainbow SET noninvasively and continuously measures total hemoglobin and oxygen content, methemoglobin, and carboxyhemoglobin, in addition to oxygen saturation and pulse rate.

### **MedGraphics** 1218

*St. Paul, MN*

Medical Graphics Corporation is the leading innovator in the design, manufacture, and sale of cardiorespiratory diagnostic systems. Our cardiorespiratory exercise, nutrition, and pulmonary function systems are used worldwide for the prevention, detection, and management of heart and lung disease.

### **Medivance, Inc.** 725

*Louisville, CO*

The Arctic Sun® by Medivance® is the temperature management product of choice of top hospitals around the world. Four Arctic gel pads provide noninvasive cooling and warming technology to precisely control the temperature of critically ill patients who have suffered cardiac arrest, heart attacks, strokes, brain injury, neurogenic fever, or other critical trauma.

### **Merck & Co., Inc.** 1430

*North Wales, PA*

Merck & Co., Inc. is a global research-driven pharmaceutical company dedicated to putting patients first. Established in 1891, Merck discovers, develops, manufactures, and markets vaccines and

medicines to address unmet medical needs. For more information, visit [www.merck.com](http://www.merck.com).

### **Meridian Healthcare Group** 1423

*Tallahassee, FL*

Meridian Healthcare Group is “Shaping the Future of Respiratory Care” with its innovative model for the treatment of patients with cardiopulmonary disease. Meridian collaborates with hospitals, skilled nursing facilities, and outpatient clinics in the development of its clinical programs. The Meridian Pulmonary Rehabilitation Program is physician-directed and provides diagnostic testing, therapeutic exercises, and medications and educational training.

### **Merit Medical Endotek, formerly Alveolus, Inc.** 1131

*South Jordan, UT*

Merit Medical Systems, Inc., has acquired the products formerly manufactured and distributed by Alveolus, Inc. This recent acquisition commences a new division, Merit Endotek, which fuses nonvascular stent technology with inflation devices, guidewires, and accessories used throughout the medical community.

### **Morgan Scientific, Inc.** 820

*Haverhill, MA*

Morgan is a leader in innovative pulmonary function testing equipment and networks. We don't just talk about interfacing, we do it! Stop by and see our plethysmograph simulator that can work with any manufacturer's plethysmograph and our exciting new exercise system. We also will be displaying our elegant remote interpretation software —Task Manager.

### **National Board for Respiratory Care, Inc. (NBRC)** 1004

*Olathe, KS*

The NBRC has been providing national recognition for respiratory care professionals since 1960. The standards of excellence denoted by the NBRC's credentials attest to the competence of respiratory therapists and pulmonary function technologists. The NBRC is a not-for-profit, voluntary certification board sponsored by the AARC, ACCP, ASA, and ATS. The federally trademarked credentials serve as a basis for licensure reciprocity, allowing CRTs and RRTs to move freely from one state to another.

### **National Library of Medicine** 1105

*Los Angeles, CA*

The National Library of Medicine (NLM) provides free information to health professionals, clinicians, researchers, and consumers via Medline/PubMed, Medline Plus, Clinical Trials.gov, and other databases at [www.nlm.nih.gov](http://www.nlm.nih.gov). MedlinePlus includes health information in more than 40 languages. Come by our booth for a hands-on demonstration.

### **ndd Medical Technologies** 1518

*Andover, MA*

ndd Medical Technologies EasyOne™ Spirometer with our patented ultrasonic TrueFlow™ measurement technology is a highly configurable and portable spirometer, featuring FVC/FVL/SVC and MVV testing. The EasyOne™ graphic curve display allows quick assessment of results, meets the NLHEP criteria for simple office spirometry and ATS recommendations for diagnostic spirometry and can interface with a printer or through a PC using our EasyWare software.

**NeilMed Pharmaceuticals** 1333  
*Santa Rosa, CA*

NeilMed Pharmaceuticals manufactures allergy and sinus relief products. These products include NeilMed's Sinus Rinse™ kit; NetiPot, soothing saline nasal irrigation system includes 50 packets of preservative free, isotonic, pH balanced mixture; NeilMed's NasoGel™, a saline gel for dry nasal passages; and NeilMed's NasaMist™, a buffered, preservative-free nasal spray. Please visit our Web site at [www.neilmed.com](http://www.neilmed.com).

**N.M. Beale Co. Inc.** 1421  
*Harvard, MA*

We manufacture and distribute endoscopic accessories.

**Olympus** 731  
*Center Valley, PA*

Take video imaging to a higher level with our Narrow Band Imaging™ (NBI) technology and the EVIS EXERA™ II 180-Series bronchovideoscopes. Other featured products include a dedicated endobronchial ultrasound system for real-time TBNA biopsy, the guide sheath system providing improved access to peripheral lesions, and a semiflexible video pleuroscope for medical thoracoscopy procedures.

**Ortho-McNeil™, Division of Ortho-McNeil-Janssen Pharmaceuticals, Inc.** 1407  
*Raritan, NJ*

Ortho-McNeil, Division of Ortho-McNeil-Janssen Pharmaceuticals, Inc., is committed to providing innovative, high quality prescription medicine and resources for bacterial infection and cardiovascular disease for health-care providers and

their patients in hospitals and other care facilities. For more information, visit [www.ortho-mcneil.com](http://www.ortho-mcneil.com).

**Oxford Immunotec, Inc.** 1524  
*Marlborough, MA*

Oxford Immunotec is a medical diagnostics company developing novel tests for various diseases based on its innovative, patented T cell measurement technology. The T-SPOT.TB test is for the detection of TB disease and infection. The test is highly sensitive and specific and is not affected by immunosuppression or bacille Calmette-Guérin vaccination.

**Passy-Muir, Inc.** 1024  
*Irvine, CA*

Passy-Muir the manufacturer of the Passy-Muir™ tracheostomy and ventilator swallowing/speaking valves: the only closed position "no leak" swallowing/communication valves. They are the only speaking valves interchangeable for use on/off the ventilator and that research validates for improved swallowing, reduced aspiration, facilitation of secretion management, and reduced weaning and decannulation time. We offer free online CEU courses and educational materials.

**PENTAX Medical Company** 1137  
*Montvale, NJ*

Breathe easier with PENTAX. Introducing the ONLY all video, curved linear-array ultrasound bronchoscope with real-time needle visualization, providing unparalleled assurance prior to aspiration. PENTAX is always providing you with the highest level of patient care without ever sacrificing efficiency and productivity. PENTAX – Empowering Your Excellence. Stop by to see our full family of video/portable bronchoscopes.

**Percussionaire Corporation** 1037  
*Sandpoint, ID*

Therapeutic Lung Recruitment™ exclusively from Percussionaire®. High frequency percussive ventilation (HFPV) includes the VOC® for intensive care ventilation for managing the most challenging patients (especially burn and trauma) and the related IPV® devices. Also the Bronchotron® high frequency transport device and the Oscillatron® allows HFPV to be added to an existing ventilator.

**Pfizer, Inc.** 1537  
*New York, NY*

Founded in 1849, Pfizer is the world's largest research-based pharmaceutical company taking new approaches to better health. We discover, develop, manufacture, and deliver quality, safe, and effective prescription medicines to treat and help prevent disease for both people and animals.

**Philips Respironics** 1111  
*Murrysville, PA*

Philips Respironics, a global leader in the sleep and respiratory markets, is passionate about improving the quality of people's lives with solutions. For Philips Respironics, innovation is driven by gaining insight into the needs of the people who use our products in the areas of sleep management, oxygen therapy, noninvasive ventilation, and respiratory drug delivery.

## Exhibitors at CHEST 2009

### **Philips VISICU 1418**

*Baltimore, MD*

Philips VISICU provides health-care information technology and clinical solutions focused on transforming delivery of critical care. The eICU® Program combines remote monitoring technology and clinical intelligence to leverage critical care resources and provide enhanced intensivist coverage and earlier intervention, resulting in safer, more effective patient care. Visit [www.eicu.net](http://www.eicu.net) for more information.

### **Pikeville Medical Center 1201**

*Pikeville, KY*

Pikeville Medical Center is a 261-bed medical center that has grown with the needs of the area during its 80-year history. For those looking to practice in a progressive, rapidly expanding environment that demands and breeds quality and excellence, Pikeville Medical Center is the place for you.

### **PneumRx, Inc. 836**

*Mountain View, CA*

PneumRx® develops, manufactures, and sells innovative medical devices to treat pulmonary disease. The RePneu™ Lung Volume Reduction Coil is a minimally invasive implantable device for COPD patients that causes lung volume reduction. The RePneu LVRC™ is not yet commercially available but shows great promise in clinical trials in Europe.

### **PracticeLink 1400**

*Hinton, WV*

PracticeLink®.com – The Online Physician Job Bank™. Find more than 14,000 practice opportunities in all specialties nationwide on PracticeLink.com. Visit

the PracticeLink.com Physician Job Bank or call (800) 776-8383 to discuss opportunities with a PracticeLink On Call™ Representative. PracticeLink is a free service for physicians. PracticeLink is not a search firm.

### **Practice Management Consultations 1928**

*Northbrook, IL*

Physicians and/or their practice administrator/managers can meet individually with ACCP's coding and reimbursement consultant, Diane Krier-Morrow, MBA, MPH, CCS-P, to discuss issues specific to their practice. There is no charge for the consultation. This is not to sell any services. All consultations will be by appointment only.

### **Pulmonary Hypertension Association 1002**

PHA is the voice of the medical community, patients, and family members united against this illness. Visit our booth for complimentary information on pulmonary hypertension, including PHA's medical journal, information about PHA's educational offerings, and a CD-ROM on diagnosis.

### **ResMed Corp. 1104**

*San Diego, CA*

ResMed is a global leader in medical equipment for the screening, treatment, and management of sleep-disordered breathing and other respiratory disorders. Our product line includes automatic positive airway pressure devices, bilevel devices, continuous positive airway pres-

sure devices, nasal pillow systems, nasal mask systems, full face mask systems, humidifiers, and software/clinical systems.

### **Richard Wolf Medical Instruments 1238**

*Vernon Hills, IL*

Richard Wolf Medical Instruments offers a broad spectrum of endoscopes and endoscopic instrumentation for thoracic procedures, including the first fully integrated rigid bronchoscope known as the Texas rigid integrated bronchoscope. Our Hemer rigid bronchoscopes are designed with a measuring tube for intrapulmonary pressure and gas. Please visit our booth to discover innovative products.

### **Salter Labs 1012**

*Arvin, CA*

Salter Labs manufactures disposable products for respiratory care, anesthesia, and sleep diagnostic centers. Hospital, home providers, extended care, and sleep diagnostic facilities choose our products for their exceptional quality and patient satisfaction.

### **sanofi-aventis US LLC 1803**

*Bridgewater, NJ*

sanofi-aventis US is an affiliate of sanofi-aventis, a leading global pharmaceutical company that discovers, develops, and distributes therapeutic solutions to improve the lives of everyone. For more information, visit [www.sanofi-aventis.us](http://www.sanofi-aventis.us) or [www.sanofi-aventis.com](http://www.sanofi-aventis.com).

### **Saunders/Mosby-Elsevier 1513**

*Carlsbad, CA*

Stop by to see the latest medical books. You can order the books by calling (760) 944-9906.

**Sentec, by Master  
Distributor Bemes, Inc.** 1121  
*Fenton, MO*

The Sentec monitor provides accurate, continuous, noninvasive real-time monitoring of patient  $P_{CO_2}$ , where studies correlate closely to  $P_{aCO_2}$  utilizing the "V-Sign Sensor," the world's only digital transcutaneous sensor. Through accurate real-time monitoring and patient trend memory, we can better assess patient ventilation and oxygenation in all clinical settings.

**Simbionix USA Corporation** 1322  
*Cleveland, OH*

Simbionix is a world leader in medical simulators and education technologies and is launching a new product, the BRONCH Mentor. The BRONCH Mentor will provide a comprehensive solution to bronchoscopic skills acquisition and maintenance of competency, combining the physical and the virtual to provide hands-on training in a realistic, reactive environment.

**Sisters of Mercy Health System** 1402  
*Chesterfield, MO*

Sisters of Mercy Health System is the ninth largest Catholic health system in the United States. Mercy has physician opportunities at facilities in Arkansas, Kansas, Missouri, and Oklahoma. We are seeking qualified physicians who share our vision of mission-vision, quality—conscious health care that puts the needs of customers first.

**SleepMed Incorporated** 1107  
*Columbia, SC*

SleepMed offers professional sleep lab partnerships to hospitals and medical practices interested in providing sleep diagnostic services at little to no upfront

costs. With flexible contracting arrangements, SleepMed provides the equipment, labor, and expertise. For comprehensive patient management, SleepMed Therapy Services can provide optional durable medical equipment services.

**Society of Critical Care Medicine** 1006  
*Mt. Prospect, IL*

The Society of Critical Care Medicine is the only multiprofessional, international organization devoted to securing the highest quality care for all critically ill and injured patients. With 13,000 members worldwide, the Society is the only professional organization devoted exclusively to ensuring excellence in the practice of critical care through education, research, and advocacy.

**SonoSite** 931  
*Bothell, WA*

SonoSite's ultrasound systems provide intensivists with the answers they need in a fast-paced, space-constrained critical care environment. They are built for immediate bedside scanning, so you can assess specific emergent conditions and perform needed assessments without delay.

**Spiration, Inc.** 1043  
*Redmond, WA*

Spiration® develops novel therapies for patients with acute and chronic conditions of the lung. The IBV® valve system has CE Mark approval in Europe and HDE approval in the United States to control prolonged air leaks after certain lung surgeries. It is investigational in the United States for treating emphysema.

**superDimension** 819  
*Plymouth, MN*

superDimension, Inc. develops and manufactures software, hardware, and disposables for the lung disease market. superDimension's system is a total bronchial access and navigation system that provides a safe pathway to peripheral or central lung lesions, even for patients with procedure-restricting conditions.

**Sutter Health, Sacramento  
Sierra Region** 1204  
*Sacramento, CA*

Sutter Health is one of the nation's leading community-based, not-for-profit health-care networks of hospitals, physician organizations, and other health-care services. Sutter Health facilities are located from the Pacific Coast to the Sierra Foothills in northern California. Contact physician recruitment at (800) 650-0625 or [develops@sutterhealth.org](mailto:develops@sutterhealth.org) for details on opportunities.

**Synthes CMF** 1018  
*West Chester, PA*

Synthes CMF seeks to improve patient care through the development, production, and marketing of instruments and implants for surgical fixation. Specialized product offerings are dedicated to innovative treatment solutions for thoracic procedures, including the internal fixation of sternal and rib fractures with options to stabilize and promote fusion.

## Exhibitors at CHEST 2009

### **Talecris Biotherapeutics 1631**

United Therapeutics Corporation and LungRx invite you to visit their booth to learn more about products for pulmonary arterial hypertension. This biotechnology company focuses on the development and commercialization of unique products to address the unmet medical needs of patients with chronic and life-threatening cardiovascular and infectious diseases.

### **Uresil, LLC 919**

*Skokie, IL*

The Tru-Close Thoracic vent is a unique device designed for the treatment of spontaneous, traumatic, and iatrogenic simple pneumothorax. The device is provided in a kit with all the components necessary for immediate insertion and resolution of a pneumothorax anywhere, anytime. The self-contained vent allows the patient complete ambulation during resolution.

### **Veran Medical Technologies 719**

*St. Louis, MO*

Veran Medical Technologies develops medical devices that enable earlier detection and minimally invasive treatment of lung cancer. Veran's IG4 Plug-N-Play delivery system uses electromagnetic navigation and respiratory tracking to enable physicians to target small lesions. The Veran IG4 system enables clinicians to integrate rich and varied diagnostic information, such as PET-CT and contrast-enhanced images, at the point of care for therapy delivery.

### **ViraCor Laboratories 1520**

*Lee's Summit, MO*

ViraCor Laboratories specializes in providing innovative molecular diagnostics to physicians treating patients who have infectious diseases. ViraCor helps improve patient outcomes by providing results the same day in which the specimens are received. ViraCor's quantitative assays are the most accurate and clinically relevant tests available for many pathogens, including the most important respiratory viruses.

**Vision Sciences, Inc.** 1231  
*Orangeburg, NY*

Vision-Sciences provides advanced flexible endoscopy systems, including the new BRS-5000 Flexible Bronchoscope, the first distal chip bronchoscope with EndoSheath® Technology. EndoSheath® Bronchoscopy gives practitioners an “always ready” bronchoscope that utilizes the sterile, disposable EndoSheath® Technology; a protective barrier between the scope and patient that allows for rapid equipment turnaround, enhanced infection control, and less capital and service costs.

**Wolfe Tory Medical** 923  
*Salt Lake City, UT*

Ab-Viser® AutoValve®, the market leader in intraabdominal pressure monitoring enables the clinician to monitor the at-risk critical patient with just one step. Just infuse 20 mL of saline solution, and read the pressure on the monitor. This device allows the clinician to use a protocol to improve outcomes and resource utilization.

**Wyeth** 619  
*Collegeville, PA*

Wyeth is one of the world’s largest research-driven pharmaceutical and health-care products companies. It is a leader in the discovery, development, manufacturing, and marketing of pharmaceuticals, vaccines, biotechnology products, and nonprescription medicines that improve the quality of life for people worldwide. The company’s major divisions include Wyeth Pharmaceuticals, Wyeth Consumer Healthcare, and Fort Dodge Animal Health.

**ZOLL Medical Corporation** 1136  
*Chelmsford, MA*

ZOLL Medical Corporation designs, manufactures, markets, and sells noninvasive resuscitation devices and software solutions that help diagnose and treat victims of trauma and sudden cardiac arrest. ZOLL also offers CodeNet™, the first software that automates the collection and management of clinical and nonclinical data.
