Total Access to *CHEST* and CHEST Books

The chest medicine professionals you support already rely on our content. But now you can offer even more with new features that include podcasts, video series, Online First articles, and direct access to Guidelines. With your subscription, users can...

Zero in on the most relevant content with

- Powerful searchable access to the complete *CHEST* archive and CHEST Books.
- Results filtered by topic, article type, and year of publication.
- Instant access to a choice of full text, figures, tables, references, or supplemental material.
- Access to CHEST Collections, including topic areas and special series.
- Internal hyperlinks and other tools for easy navigation from article sections to images and references.
- A carousel viewer at the beginning of each article to scan figures quickly and easily.

Stay one step ahead with the latest content and updates with

- E-mail alerts to new issues, Online First articles, article changes, new articles in subject areas of interest, and more.
- Article recommendations to related content in *CHEST* and PubMed.
- Guideline recommendations from National Guideline Clearinghouse.
- Podcasts featuring lively discussions around controversial and emerging issues facing clinicians today.
- Updates from the ACCP Twitter feed.

Experience *CHEST*'s New, User-Focused App

Connect busy health-care professionals to the content they need— whenever and wherever they need it most. Your subscription includes all the benefits of *CHEST*'s fully redesigned app for iPad®, iPhone®, and iPod touch®:

- Free from App StoreSM or iTunes[®].
- Ninety days of free access when users authenticate through your institution's subscription.
- A new dynamic home page, highlighting featured articles from the current issue and the most-read articles.
- Expanded menu for easy central navigation to *CHEST* Podcasts, Online First, Guidelines, full *CHEST* archive, and more.
- App views adjust for optimal viewing on any iOS device.
- A rich image-viewing experience with full-screen option and the ability to scroll through a figure/table-only view of each article.
- COUNTER reports include all usage, including access from *CHEST* app through your institution's subscription.
- New features added regularly.

Subscribe now to gain full access to all CHEST publications—*CHEST* and CHEST Books—with new user-focused tools.

- **Search** the entire *CHEST* archive (from 1935) and CHEST Books, or limit results to a single publication.
- **Browse collections** by relevant topics in chest medicine across all CHEST publications.
- **View recommended readings** in context for all articles from *CHEST*, CHEST Books, PubMed, and National Guideline Clearinghouse.
- **Receive personalized content**, such as e-mail alerts and RSS feeds about new topics and special sections.
- **Access guidelines and consensus statements** from anywhere on the site, plus quick links to guidelines in the National Guideline Clearinghouse.
- **Listen to monthly podcasts** from *CHEST*, on the site, or in iTunes®, to add context and commentary to the challenges facing clinicians.
- **Search, browse, and read on the go with mobile sites** for all CHEST publications.
- **Check out** the new Ultrasound Corner video series, a presentation of key concepts of general critical care ultrasonography with real cases and images.

CHEST delivers the best in peer-reviewed, original research, systematic reviews, and comprehensive literature reviews to a diverse audience of medical professionals, specializing in pulmonology, critical care, sleep medicine, and thoracic surgery. The internists, family physicians, nurses, respiratory therapists, and home-care professionals who read *CHEST* are committed to providing the best possible care to their patients with chest-related diseases. *CHEST* is also home to the ACCP's highly regarded clinical practice guidelines and consensus statements.

CHEST is available in print, online, on the mobile web, and as an app for iPhone®, iPad®, and iPod touch®. All mobile usage is tracked and included in COUNTER reports.

Visit *CHEST* at publications.chestnet.org to see for yourself.
