

Name of the Grant: Eli Lilly and Company Distinguished Scholar in Critical Care Medicine

Application Deadline: March 31, 2021

Amount of Grant: \$150,000 3-year grant

Distinguished Scholar Proposal Focus

Applications must address research that: (1) enhances scientific knowledge, advances evidence-based medicine, and/or improves clinical/community practice related to respiratory health patients; (2) furthers the understanding of the mechanism and management of acute and life-threatening respiratory illness; or (3) addresses the organizational attributes associated with the optimal delivery of respiratory health services. Projects must also demonstrate how it will have a positive impact on the lung health of a community.
