The Honorable Nancy Pelosi Speaker of the House of Representatives U.S. Capitol Building, H-222 Washington, DC 20515

The Honorable Kevin McCarthy House Republican Leader U.S. Capitol Building, H-204 Washington, DC 20515 The Honorable Mitch McConnell Senate Majority Leader U.S. Capitol Building, S-230 Washington, DC 20510

The Honorable Charles Schumer Senate Democratic Leader U.S. Capitol Building, S-221 Washington, DC 20510

Dear Speaker Pelosi, Leader McConnell, Leader McCarthy, and Leader Schumer:

The undersigned state, specialty, and national medical associations represent hundreds of thousands of frontline medical and mental health physicians who are diagnosing, testing, treating, and counseling millions of our nation's patients in response to the COVID-19 pandemic. During this unprecedented national health emergency, physicians and other health care professionals have been putting themselves at risk every day while facing shortages of medical supplies and safety equipment, and making critical medical decisions based on changing directives and guidance. These physicians and other health care professionals are now facing the threat of years of costly litigation due to the extraordinary circumstances. As the House and Senate continue to work on the next COVID-19 relief package, we strongly urge you to include the targeted and limited liability protections that are in the bipartisan bill, H.R. 7059, the "Coronavirus Provider Protection Act."

The public health emergency triggered by the COVID-19 pandemic has created unprecedented challenges to our nation's health care system. In addition to facing inadequate supplies and safety equipment, physicians, hospitals, and other frontline health care professionals have been faced with rapidly changing guidance and directives from all levels of government. Examples include suspending elective in-person visits and procedures, being assigned to provide care outside the physician's general practice area, rationing care due to shortages of equipment such as ventilators, inadequate testing that could lead to delayed or inaccurate diagnosis, and delays in treatment for patients with conditions other than COVID-19. In these and other scenarios, physicians face the threat of costly and emotionally draining medical liability lawsuits due to circumstances that are beyond their control. These lawsuits may come months or even years after the current ordeal is over.

The liability protections we call on Congress to pass are not universal; they are intended to provide targeted and limited protections where health care services are provided or withheld in situations that may be beyond the control of physicians/facilities (e.g., following government guidelines, directives, lack of resources) due to COVID-19. The protections extend to those who provide care in good faith during the COVID-19 public health emergency (plus a reasonable time, such as 60 days, after the emergency declaration ends), and not in situations of gross negligence or willful misconduct.

As physicians and other health care professionals, and the facilities in which they provide their services, continue their heroic efforts to stop the spread of COVID-19 while caring for COVID-19 patients as well as meeting the needs of other patients, they will remain vulnerable to the threat of unwarranted and unfair lawsuits. We therefore strongly urge Congress to consider targeted and limited liability protections for physicians, other health care professionals, and the facilities in which they practice as they continue their efforts to treat COVID-19 under unprecedented conditions.

We thank you for your consideration.
